

Lyon's SUMMER Store Reopens With a Revamped Interior & New Brand Selection

A culmination of “ideas, conversations and visions” from across the globe.

Lyon's premier retail destination [SUMMER Store](#) reopens the doors to its brick-and-mortar location with a host of new brands and a revamped interior. Boasting a minimalist concrete interior with dark wooden fixtures throughout, the space is said to be a culmination of “ideas, conversations and visions” from across the globe, most notably Japan and California, and was brought to life by interior designer Nathalie Rives, who coincidentally occupies a space just down the street from the store. A unique bit of modernity and chic-industrial aesthetics, SUMMER Store welcomes you with open arms as it embarks on a new chapter in a revamped space. Make sure to check it out at the address below.
